

Damariscotta

Pumpkinfest & Regatta

Growing Giant Pumpkins,
are you going BUGGY?

If you are having trouble with pests and disease, try using a malice granular (like Merit) and/or a spray-product like Talstar to control the squash vine borer. Alternate with two different pesticides to prevent and control powdery mildew. Spray in the cool of the morning so you don't burn the foliage.

Giant Pumpkin Guidelines & Growing Tips from Damariscotta Pumpkinfest, to read about, and see pictures of, how to care for and hand pollinate your giant pumpkin.
